Who can join Health Care Insurance?

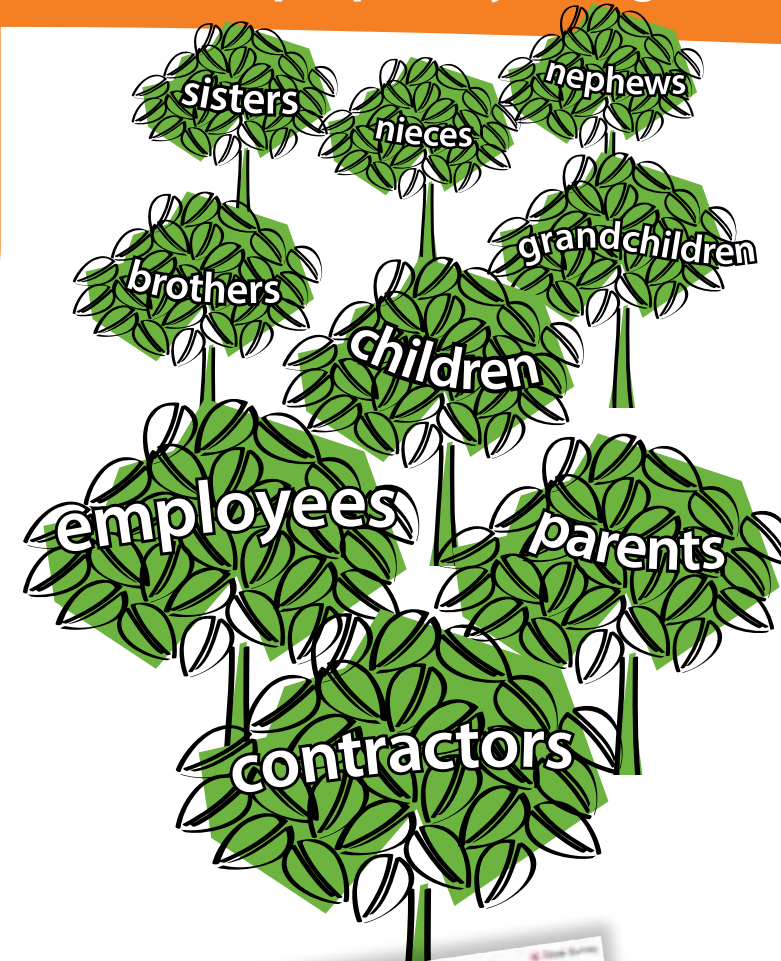

You are eligible to join if you are or have been employed in the forestry, timber or downstream processing industries including the production of timber and paper products; or if you are a contractor (including employees) providing services to these industries.

Obviously, officers or employees (including contractors) of Health Care Insurance are also eligible. **Perhaps most generous of all is the fact that even dependants, siblings, grandchildren or parents of a person covered by any of the above categories is also eligible to join.**

Once accepted as a member you retain your HCI membership eligibility for life.

It's comforting to know that all of these people may be eligible.
